

Loping Coyote Farms Nursery Master Plant List

This represents who we are either selling right now or who we have sold at other times. Find our current plant catalog on our website to see who we have for sale this year. If you see plants on this list that you would like but who aren't in our current catalog, ask if we can still get them for this year, or order ahead for next season, ideally in the fall or winter. Also let us know if you would like other plants that aren't on this list. Remember that we do sell nearly all of our plants bare-root at our sale in the spring, so order and plan ahead, or check out our bare-root sale prices in the winter or early spring.
